

Galahad

a revolutionary polishing technology

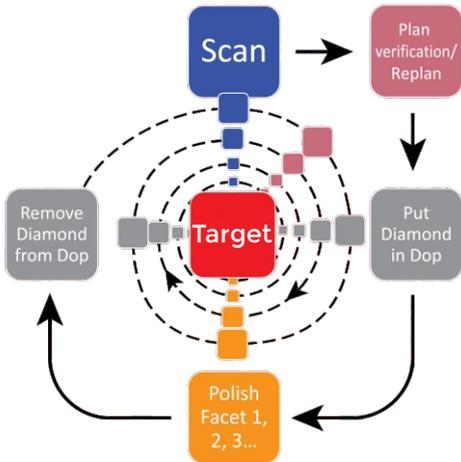

Generate next faceting stage

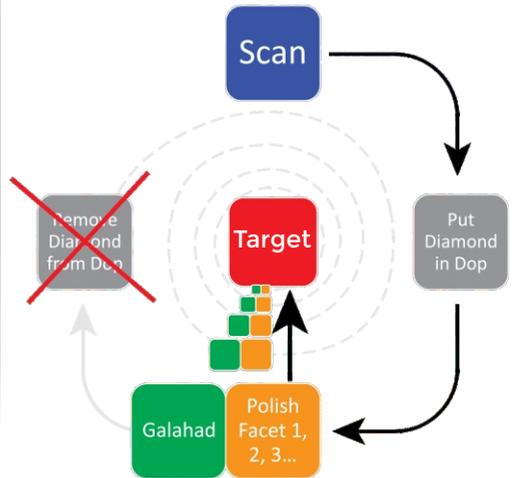

Stage/Step	Cut Progress/Show Sections
▼ Stage 1 (Table)	
Step 1 (fac...)	24.7 0.0 mkm ✓
Target slope	0.63 = 0.00 + 0.63°
Target azimuth	20.81 = 0.00 + 20.81°
Target depth remaining	24.7 mkm

Current Diamond Polishing Process

~~Galahad~~ "Indirect measurement for direct control"

✓ Introducing Galahad 1.0 (Polish Advisor)

Galahad 2.0 (Technical Assistance to Polisher)

- ✓ A novice polisher can give an output similar to an expert polisher with many years of experience.
- ✓ Cutting and polishing any asymmetric cut is like cake walk.
- ✓ High productivity (as high as 2x to 4x)
- ✓ Helps you fulfil your design promise.
- ✓ Minimize no. of scans required during polishing.
- ✓ Accurate control of depth (Galahad 2.0)
- ✓ Use of existing tools & Pots.
